

# Excise Tax Advisory

---

Excise Tax Advisories (ETA) are interpretive statements issued by the Department of Revenue under authority of RCW 34.05.230. ETAs explain the Department's policy regarding how tax law applies to a specific issue or specific set of facts. They are advisory for taxpayers; however, the Department is bound by these advisories until superseded by Court action, Legislative action, rule adoption, or an amendment to or cancellation of the ETA.

## LABOR AND SERVICES OF A SUBCONTRACTOR

Issued July 1, 1966

Is a contractor furnishing and installing concrete forms and form supports of plywood and/or steel taxable under the "Wholesaling" classification as a subcontractor or taxable as being engaged in the business of furnishing scaffolding?

Where a taxpayer was contractually responsible for the quality of the finished concrete work and his services were to be in precise conformance with the plans and specifications of the prime contract, he was held to be taxable under the "Wholesaling" classification as a subcontractor, performing labor and services for another contractor for resale.
